Data Acquisition/Collection

hoarding trash in the internet so cleverly
that we call it an executive strategy

https://github.com/jendralhxr/introdatascience

Data Collection, definition

Process of gathering, measuring, and retrieving raw, unstructured, or structured data from various sources to answer specific research questions, train algorithms, evaluate outcomes, or drive decision-making.

Does the data exist yet?

- Already exists (collection, gathering)
- Exist by other external party (retrieval)
- Generated through active experiment and survey (measuring)

Method

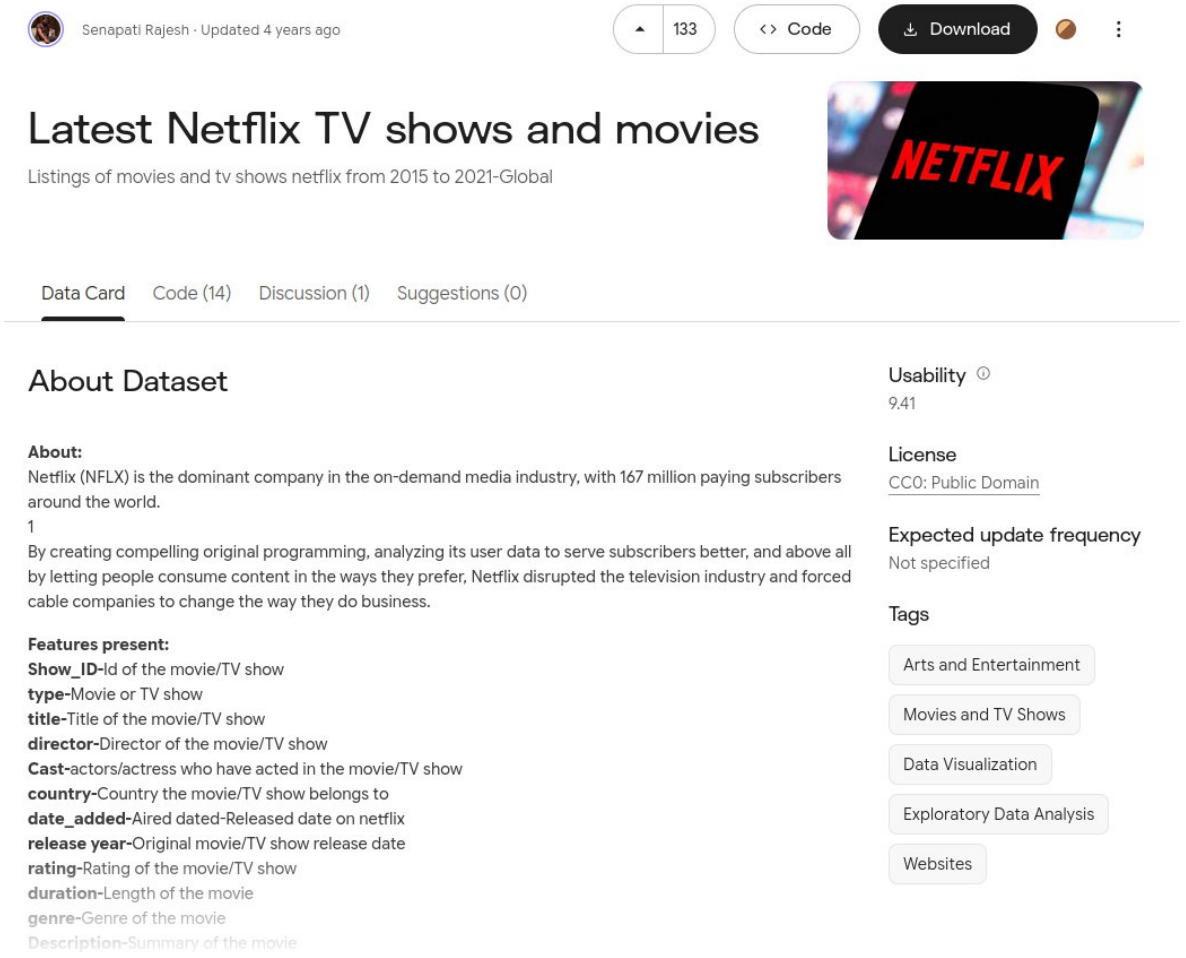

- Dataset initiatives
- Physical hardware sensors
- Controlled experiment research
- Direct human input (questionnaire)
- APIs (Application Programming Interface) and SQL query
- Automated retrieval/scraping
- Synthetic

Attendance List

Datasets, sb already did the curation

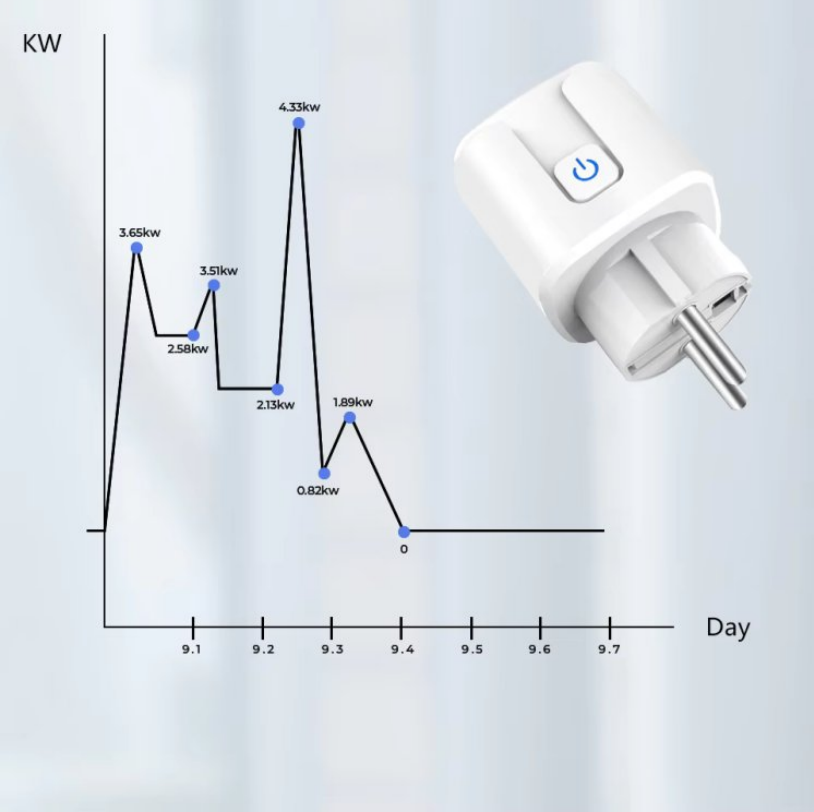

```
import pandas as pd
import kaggle

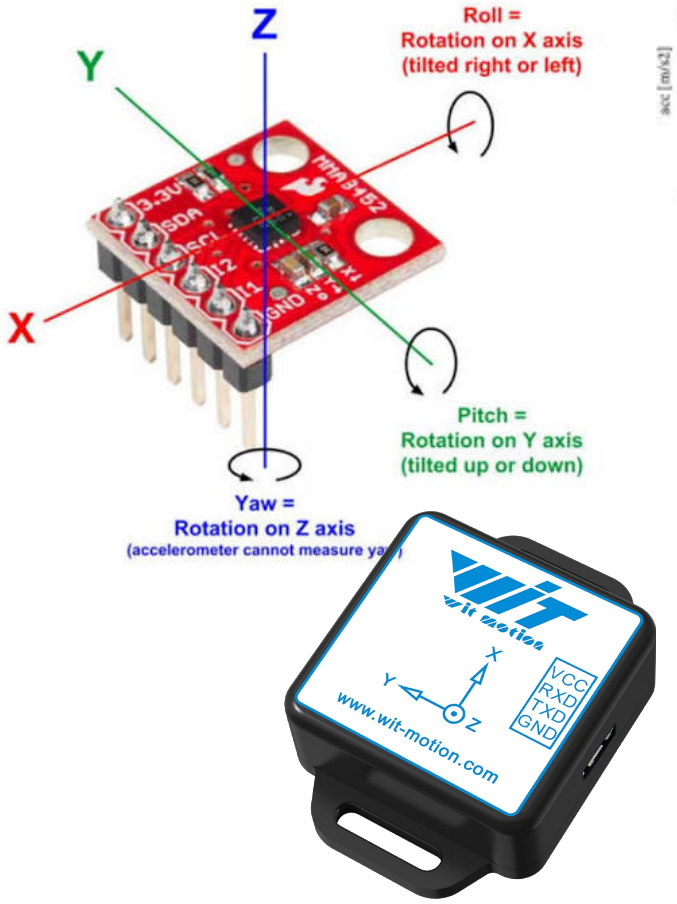

# Authenticate & search public datasets on Kaggle
kaggle.api.dataset_download_files(
    "senapatirajesh/netflix-tv-shows-and-movies", path="./data",
unzip=True)

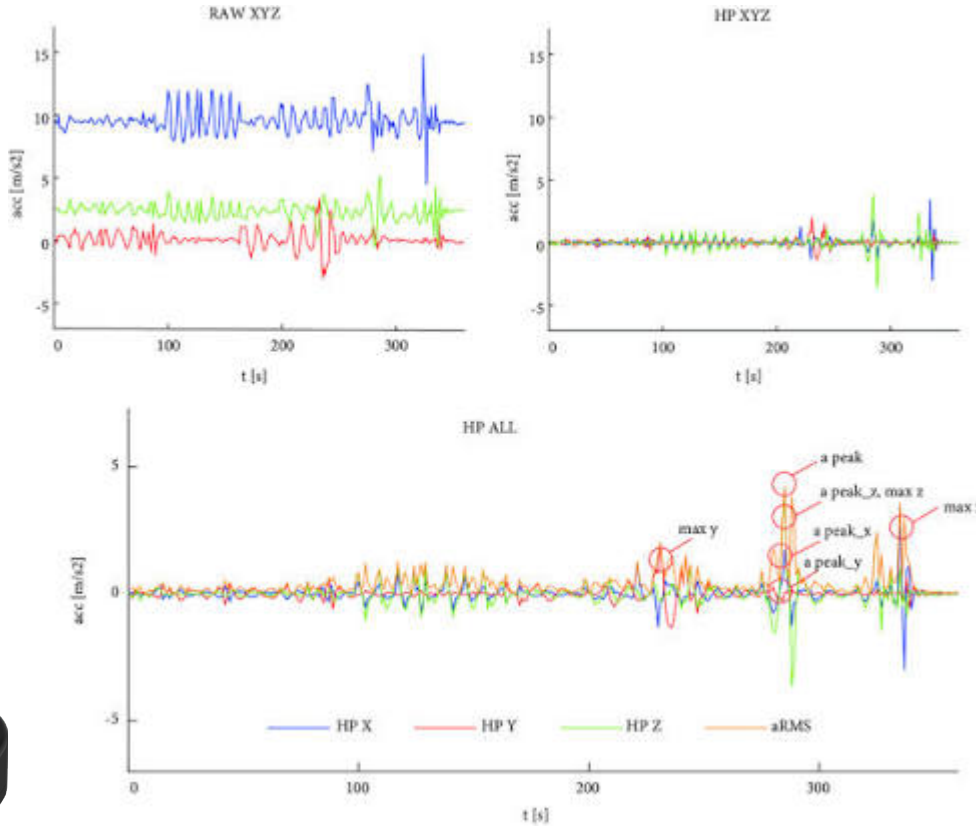

# Load into DataFrame
df = pd.read_csv("./data/NetFlix.csv")
print(df.head())
```

Cont'd

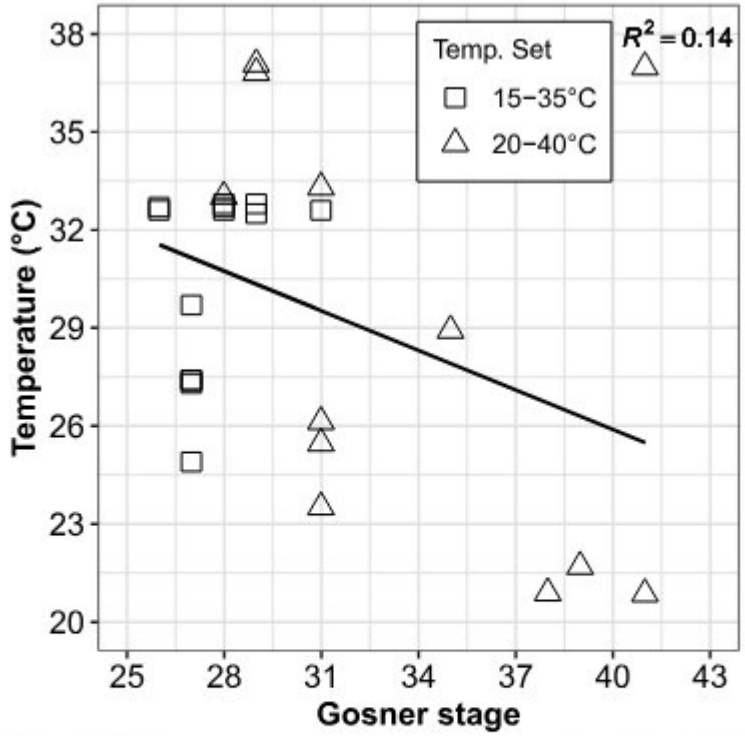

Fig. 5. Preferred temperatures of *B. japonica* from Seranma hot spring (Kuchi Island). Two temperature sets were used: open squares represent 15–35°C, open triangles represent 20–40°C. The regression line was generated using the "lm" method from the *geom_smooth* function within the "*ggplot*" library in RStudio. Details of the temperature preferences data are available in Supplementary Table S3.

Frog tolerance to heat

Surveys, questionnaire

Instructions

1. Which of the following activities occupied you on your visit to the unisza Library today? Please check all that apply. Then, check the appropriate box beside each activity to show how successful you were in achieving your aim.

Activity	*Very unsuccessful*	*Fairly unsuccessful*	*Neither successful nor unsuccessful*	*Fairly successful*	*Very successful*
❑ Looked for library materials on the Shelves……	❑	❑	❑	❑	❑
❑ Used an electronic information service (e.g. OPAC, the Internet)….	❑	❑	❑	❑	❑
❑ Used the library's catalogue……..	❑	❑	❑	❑	❑
❑ Got or sought help from library staff	❑	❑	❑	❑	❑
❑ Studied my lessons……	❑	❑	❑	❑	❑
❑ Others, please specify: _____	❑	❑	❑	❑	❑
❑ Others, please specify: _____	❑	❑	❑	❑	❑

2. Approximately, how often do you visit the unisza Library?

❑ Daily ❑ Weekly ❑ Bi-monthly ❑ Monthly

3. What type of materials do you mainly visit the unisza Library to obtain?

❑ Books ❑ Theses
❑ Newspaper/Clippings ❑ Electronic References/Information

Wrap up

- Data is already everywhere
- But if one needs specific data, they need to get their hands dirty
- Parsing the information and understanding the context is still utmost important
